*"Spring is nature's way
of saying, Let's Party!"
or Let's Golf!*

-Robin Williams

Fashion Tip

It's turquoise, it's dark blues, it's crystal tans, it's orange petals—springtime is here!

I love to own the season with my choices of color and passion for fashion. What does spring mean to you? Can you remember all the things you did growing up as the flowers bloomed? The air is beginning to get crispy, and we are starting to wear skirts. We can slowly begin to put the rain gear and sweaters away. I am ready to blossom and get fabulous for a beautiful spring.

Golf Tip

Golf is a game that was meant to be played from the fairway. Hitting more fairways with your driver will lower your scores. Here are three steps to get you hitting more fairways.

Step 1

First things first, it's important to set yourself up off the tee for a good opportunity to hit greens in regulations. Select the right club. Club selection is key to hitting more greens. Make sure you factor in the wind, undulations, your lie, and pin placement.

Step 2

Aim at the center of the green. Sometimes we try to get fancy and attack pins that can lead us into some trouble. Aim for the center and you are faced with a birdie or par.

Step 3

Trust your swing. Before pulling the trigger, try using one positive word to remind yourself that you can do this! A word such as "strong" or "smooth" can give you the confidence to hit great shots throughout your round. 🏌️‍♀️
